

## ROSE Recaptured Image Database Release Agreement

The high-resolution images in the ROSE Recaptured Image Database consists of 2000 natural images and 2700 finely recaptured images. These have been captured using 5 different brands of camera (Canon, Casio, Lumix, Nikon and Sony). The resolutions range from 2272 by 1704 to 4256 by 2832.

The ROSE Recaptured Image Database is the property of the Rapid-Rich Object Search (ROSE) Lab at the Nanyang Technological University, Singapore.

This database is released for academic research only, and is free to researchers from educational or research institutes for non-commercial purposes. Please read and sign your agreement to the following terms and conditions to get access to this database.

### Terms & Conditions

The use of this database is governed by the following terms and conditions:

1. Without the expressed permission of the ROSE Lab, any of the following will be considered illegal: redistribution, modification, and commercial usage of this database in any way or form, either partially or in its entirety.
2. For the sake of privacy, images of all subjects in this database are only allowed for the demonstration in academic publications and presentations.
3. All users of the ROSE Recaptured Image Database agree to indemnify, defend and hold harmless, the ROSE Lab and its officers, employees, and agents, individually and collectively, from any and all losses, expenses, and damages.

### Publications

All publications using the ROSE Recaptured Image Database should acknowledge this as follows: **“(Portions of) the research in this paper used the ROSE Recaptured Image Database made available by the ROSE Lab at the Nanyang Technological University, Singapore.”**

Furthermore, these publications should cite the following references:

- **H. Cao and A.C. Kot, "Identification of Recaptured Photographs on LCD Screens," in Proc. of ICASSP, pp. 1790-1793, 2010**
- **H. Cao, "Statistical Image Source Model Identification and Forgery Detection", PhD thesis, Nanyang Technological University, 2010**

## Access

By completing and signing this agreement, you have accepted the above terms & conditions and agree to include the above acknowledgements in your publications.
